Question: How wide is the actual brush? It looks pretty small in the pictures

Answer: The brush is 12" wide, more than enough to do the job. We have three of these; one for each car! They work like a dream! Kathy

Well let me start by saying I want to love this because it is a really nice winter helper BUT. Ok here is the skinny from my first experience as I opened up box. First I was a bit surprised it was disassembled but I guess for shipping savings is possibly reason. The Problem started there unfortunately though as there is 3 parts to this. Scraper end -handle/shaft mid section and then brush/squeegee end that's it. So paper shows pushing together both ends into middle handle section and are clearly labeled A end and B end to match same labs on handle, nice. And then it happened 😞. The company went from awesome look and feel item to Cheap and Unreliable in a blink of an eye. The Major and Final death of this item THE SNAP BUTTON. The handle has 1 locking button at each end that the attachment ends is supposed to slide over and the Snap Back Up into the head attachment there by locking the handle to head. This Pop Up Button has No Spring No means of tension other than from what I saw the plastic itself so as I pushed the head onto handle the Button went down and stayed down thereby ruining entire unit in less than 30 seconds. Unbelievable that the cost of building this quality design item was sacrificed by 1 moment of cheapness in design. I've had and seen millions of items with a similar principle of a button engaging 1 end to another but this was by far the cheapest and least reliable attempt I've seen to date and guessing why I haven't

★★★★★ I ran it over with my car & it didn't break
Reviewed in the United States on February 5, 2023

This snow brush is legit! I accidentally ran it over with my car and it somehow didn't break. It took less than a minute to unpackage, and works awesome for snow and ice removal on my Nissan SUV. Having a decent snowbrush for winters in New England is a must and this one exceeds my expectations - recommended it to a bunch of my family and friends, very happy with my purchase!

★★★★★ Great for Those With Trucks or SUVs
Reviewed in the United States on January 19, 2023

This product has come in handy multiple times this winter. I have always struggled to clean off the snow off of my SUV with the standard short snow brush/scrapers. This brush was very easy to put together and I just keep it in my car the whole time. Whenever there is a lot of snow this brush allows me to quickly and thoroughly get the snow off of my windshield and on the top of my car.

★★★★★ **Held up to the 2022 Christmas Bomb Cyclone with 4+ feet of Snow!**

Reviewed in the United States on January 2, 2023

Size: 39 inch | Verified Purchase

Ice scraper end is effective. The brush end is also effective and the lock for the head locks up solid and doesn't want to pivot, even when pushing a foot of snow off a hood. The rubber squeegee side of the head also does its job effectively. Wish it was just a bit longer for the top of a truck cab. Can't quite push the snow completely over the other side. So you have to drag it back towards you, that ends up on you!

★★★★★ **Best on the market, a bit heavy**

Reviewed in the United States on January 16, 2023

Size: 39 inch | Verified Purchase

Pros: brush is sturdy af, scraper is great, squeegee works great, long enough to get snow off roof of lifted SUV, witty product name

Cons: kind of heavy (teenagers/smaller adults may struggle), could have another section of grip further up the handle, not a single cow sticker on it:(

★★★★★ **Great piece**

Reviewed in the United States on January 7, 2023

It extends to reach my whole wind shield and rear window of my ram 1500. Study construction and easy to put together. Angles on the scraper are good for stuck ice or just thicker snow. Brush is sturdy enough not to fold over under snow weight but it won't damage the paint. Highly recommended.

★★★★★ **Fantastic**

Reviewed in the United States on December 29, 2022

This is a must have living in northern Colorado. This thing works great, makes getting on the road in the wee hours of the morning much more efficient. The scraper could be a little wider. But the broom is fantastic and the extension is a great feature. It's also a nice size, the grips are large, comfortable and I can hold onto it easily with gloves on.

☆☆☆☆☆ **Broken after 2 times - disappointing**

Reviewed in Canada on December 6, 2019

Size: 39 inch | Verified Purchase

The brush is sturdy overall but one of the most important parts broke after only 2 regular uses!
The head pivots which is great but not if it breaks.
It's made of weak plastic but should be metal.
Unfortunately we can't return it since the 1 month return date was mid October before snow fall even starts.
Had to use an old, better made, brush to finish the job.

The squeegee blade is rock hard at freezing. Totally useless trying to squeegee my window off. Won't conform to windshield more than a few inches.

Complete failure. The squeegee blade SHOULD HAVE BEEN made of silicone.

The rest is well built and robust but in my opinion too big. Even the smaller one is too big. It should be shorter and exted.

Reviewed in Canada on November 12, 2019

The product was quite expensive for what it is- the extendable feature is great, the plastic for scraping and brush bristles are good quality however the actual mechanism feels cheap. I'm located in the GTA of Ontario and we had our first snowfall, and the head (pivoting) cracked after the second use- this the head is no longer attached to the body.

I feel like at this price point it is possible to get better snow brushes. I've only used this a couple times so I can't speak for its durability through a rough winter, but it looks like it will do okay. It's nice and flexible but a little pricey.

Good product for the price. Decent quality. After a few uses the locking mechanism broke on me. I couldn't fix it all. Now the top part keeps spinning around and won't stop. Helped make the job easier until it broke on me.
